REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly teach controllably stopping the chemical attack of the wafer surface by progressively introducing an acidic rinsing solution to prevent chemical attack to the wafer surface when polishing stops. The closest prior art, to Krishna et al, '373, teaches quenching the wafer, not progressively introducing the acidic rinsing solution. Such quenching does not allow for controlled stopping of the chemical attack of the wafer surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 571-272-4493. The examiner can normally be reached on Monday-Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 571-272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
